Not Less Cotton, But More Corn.

The present high prices of corn and the prospective high prices for bacon and other needed supplies is another cautionary signal that there is dan-ger ahead in the continuance by the planter of the production of cotton alone to the exclusion of other farm products. There will occur, now and then, a bad season, and possibly two or more in succession. With but a single staple product to rely upon, this means to many men bankruptcy and ruin. That no people can become permanently prosperous who are not self-sustaining is accepted as an axomatic truth by some of the wisest and most eminent thinkers and writers upon political economy, and observation has shown that planters in the south who have followed this suggestion and lived within themselves are more independent and carry less indebtness

Farmers Making Debts.

A good deal has been said against farmers going in debt. Yet there is not one in a thousand who has the capital to do what he should to get the best results from the farm. The trouble is not in the debt itself, but in the objects for which it was accumulated. No farmer was ever ruined by debts incurdors wheather there are not too many compliments paid to English bravery and gallantry.

GOOD GOFFEE. Everybody wants it, but very few get it, because most people do not know how to select collec, or it is sooiled in the roasting or making. To obviate these difficulties has been our study. Thurber's package coffees are selected by an expert who understands the art of blending various flavors. They are possted in the mean perfect manner (it is impossible to roast well in small quantities), then put in pound packages (in the bean, not ground,) bearing ohr signiture as a guarantee of gennineous, and each package contains the Thurber recipe for making good Coffee. We pack two kinds, Thurber's "No. 34" atrong and pungent; Thurber's "No. 34" atrong and pangent; Thurber's "No. 41" mild andrich. One or the other will suit every taste. They have the three great points, good quality, honest quantity, reasonable price. Ask your grocer for Thurber's roasted Coffee in pound packages, "No. 34" or "No. 41". Do not be put off with any other kind—your own palate will tell you what is best.

Where persons desire it, we also furnish the "Ideal" Coffee-pot, the simplest, best and cheapest coffee-pot in existence. Grocers who sell our Coffee keep them. Ask for descriptive circular.

Respectfully, &c., H. K. & F. B. THURBER & CO.,

porters, Wholesale Grocers and Coffee Roasters, New York. Roasters, New York.

P. S.—As the largest dealers in food products in the world, we consider it our interest to manufacture only pure and wholesome goods and pack them in a tidy and satisfactory manner. All goods bearing our name are cauranteed to be of superior quality, pure and wholesome, and dealers are authorized to refund the purchase price in any case where customers have cause for dissatisfaction. It is therefore to the interest of both dealers and consumers to use Thurber's brands.
